DCG Families,

We are excited to roll out a brand new platform to students and parents this school year called the DCG Learning Hub. This will be used for both the Hybrid and Online Learning Models so that parents can access weekly learning. You can find the DCG Learning Hub on the top of the welcome page of our website, <https://dcgschools.com/>. The Learning Hub will be fully available starting Friday, August 28th by 3 PM. Please take a moment to watch the video below to better understand the Learning Hub.

[DCG Learning Hub Video](#)

Attendance will be taken as usual for students learning on-site for the day. Attendance will be taken for both students learning online and those learning off-site in the Hybrid Model. For students in the Hybrid Learning Model, activities and assignments must be completed during off site days. Work completed will count for attendance and can be completed anytime during the offsite days. Completed work can be submitted online via SeeSaw, Google Classroom or in packet form back to the classroom teacher by the student's next in person learning day. Students in the Online Learning Model will need to log in at their assigned live lesson times for attendance. Login information will be communicated through the online teachers.

For students in the Hybrid Learning model, once technology arrives and has been distributed, our intent is that students will need to submit work each offsite learning day through SeeSaw or Google Classroom. The work submitted will count as their attendance on off-site learning days.

We are excited to share this new learning tool with you and our students this year. Thank you for your partnership in learning this school year.

Lisa Clayberg, Director of Teaching and Learning
