DCG Families,

In consultation with the Dallas and Polk County Health Departments, DCG administration continues to work with our nursing staff when there is a reported positive COVID-19 case. In efforts to keep students, staff, and parents updated of how COVID-19 is impacting our district while protecting the privacy of those affected, we want to inform you of our positive COVID-19 cases and quarantine count. This past week we have had three positive COVID-19 cases which continue to be less than one percent of our population. Our average student quarantine for the past week also remains under one percent.

We continue to contact trace and reach out to those individuals directly affected. It is important to note that our mitigation strategies are working and we will continue to monitor our population to ensure safety measures are being met.

Thank you for understanding that due to medical privacy laws, we are not able to release the name(s) of the individual(s) with COVID-19. We will continue to communicate changes and updates with you. With your continued support, we believe we can continue creating a safe and fun learning experience for your child(ren).

Scott Grimes, Superintendent
