With the recent change in facial covering recommendations from the Iowa Department of Public Health and the Governor's Office, a proper facial covering is considered a face mask. Previously a neck gaiter or a face shield were considered approved options as facial coverings. With the recent change these options no longer apply. Following the new guideline of wearing a face mask in school allows students and staff to reduce the chance of quarantine when in close contact if there is a positive COVID-19 case.

Beginning Monday, October 5th all students are required to wear a face mask rather than a neck gaiter or face shield. If your child does not have a face mask one will be provided.

Staff members may still be in a face shield for instructional purposes when 6 feet of social distancing can be met. Neck gaiters are no longer allowed for students or staff.
