North Ridge Elementary - A View from the Ridge

Parent drop off/pick up **REMINDER** - For safety purposes please do not let your children out of your vehicle until you are between the cones unless an adult is there to help. The winter weather causes things to become slick and we don't want anyone falling and getting hurt. The area between the cones is cleared of snow and ice as much as possible.

As the potential for inside recess increases over the next few months if you have any board games, card games, etc. that kids have outgrown we would love to take them off your hands.

Handbook Review: Food Allergies - Food allergies are becoming more common in our student population. Our goal is to make our schools as safe as possible for these students.

No Homemade Treats or Food Items - Students are not allowed to bring in homemade treats or food items. All treats must be commercially prepared and packaged for distribution with intact ingredient labels. Classrooms with students who have life-threatening allergies may have more specific guidelines.

Classroom Treats - If there is a life-threatening allergy in a specific classroom, notes will be sent home with each student asking to avoid the allergy item in snacks and treats. Nuts of any kind are not allowed in any building. All classroom treats must be brought to the front office to check for allergens.
